Hello Everyone,

Thanks for attending this year's 4-State PWSS meeting. We received valuable feedback from everyone in attendance and we will try incorporate those suggestions into next year's conference. Attached below is the final summary notes for the Four State PWSS meeting on April 16-17, 2008.

PWSS Meeting Summary.doc

Thanks,

Nathaniel Dunbar II **US EPA** Drinking Water Management Branch (DRWM)

PWSS 4-State Meeting Summary

On April 16-17, EPA met with the 4-State Drinking Water program managers and staff. The main topics of discussion were :

State Priorities

• Kansas – Issues facing Kansas include a funding crunch with a \$350,000 to \$400,000 short fall. The state does have set-aside funds available. SDWIS maintenance is a burden, costing approximately \$125,000 per year. At one time, KDHE thought that they would have a large issue with arsenic; it is a much smaller issue than first thought with 12 to 13 systems that will have problems coming into compliance, while 13 communities are working on radionuclides. Nitrate is a long term issue. Pretty Prairie violations were discussed. Interested in a Nitrate Complinace Strategy.
